

Take Life's Water FREE

[not getting side-tracked by
Evil, Crime & Deceit]

by

Emily E. W.-Cragg, B.S., M.A.,

Wisdom of Yahweh Series
BOOK TWO

ISBN 1449984908
EAN-13-9781449984908

We have lost our ideals, how to
behave and get along decently,
civilly and kindly.

Let's go back and review how
we choose our thoughts,
how we pick out our experiences,
and how to get back "Doing Good."

TABLE OF CONTENTS

Introduction & Foreword . . .	3
What is Lawful Will Endure . . .	4
Inner Silence is the Way . . .	12
Who is "Yahweh" . . .	55
Peoples' New Catholic Prayerbook . . .	56
Benedictine Condo Handbook . . .	65
Consent-As-Choice . . .	81
Divine Law, for Residents and Guests . . .	117

Introduction & Foreword

"Let your yes mean Yes; and your no, No." "Destruction is never a Blessing; and Life is NOT just a Problem."

For the past sixteen years, I have been calling out to God because my own life was broken, but I didn't know why or how to fix it. And so God, having a great sense of Humor, filled my thoughts and days full of wise sayings and deep knowledge and great yearnings. In the intervening years, somehow I healed up and my anger subsided, and my need to stand over people and shake my finger at them, went away.

This is the second in a series of six books out of all the thousands of pages of journaling, that I think other individuals might be able to use. :

"Civil Life and Galactic History." Next, comes this volume,

"Take Life's Water FREE" and 3rd,

"Thriving ANYWAY -- Getting Even."

I hope somebody can put this precious knowledge and wisdom to good use. I sure have. -- Emily Cragg

What is Law-FULL Will Endure

Why consider abstract Religion, anyway? . . . to link up to the Cosmos and because we have been disowned by our Leadership.

"Converting" to a new way of thinking is not a matter of tolerating dogma; it is a matter of the outcome you want to produce.

Freedom is not wasting your Sources, nor giving power to predators, nor living where danger lurks. Come on! Smell the coffee!

Where did your FUN go, eh?

This planet has been covered by five "covenants" with its Sovereign God Yahweh, none of which made or make demands about controlling your mind.

1. The Covenant of Adam had to do with stewardship and harmlessness [no killing at all].
2. The Covenant of Noah had to do with community-building once safety was established in a time of cosmic change.
3. The Covenant of Abraham had to do with blessing all the nations of the earth

[by utilizing reading and writing to archive a form of historical record], and thereby developing reckoning and reasoning. But nobody told Abraham what political party he had to belong to!

4. The Covenant of Moses had to do with establishing Law and beginning a process of redeeming people who were learning what "sin" is and what mistakes are. Notice how leadership has repudiated Just Law totally!

5. The Covenant of Yeshua [Jesus] enlarged on the Mosaic Covenant by providing a means for forgiveness that did not and does not demand a death as a propitiary sacrifice, as an outcome. So why are our leaders still killing off minorities and cultures?

Each of these Covenants has a different outcome that you might want to think about, before you decide to join up, or stay joined up with any ecclesiastical group.

People who stick with the Covenant of stewardship usually associate with incarnate angels and nature spirits. And even they are "not-seeing" [Nazi-ing] what happens to people.

So long as we remain harmless, our [spiritual] memories are archived; and upon death, and we are justified for a resurrection to the Subjective [Heaven] but not necessarily EVER back into the Physical [Earth].

Those who have remained with the Covenant of Abraham are Muslims and Moslems. Their Law is that of Retribution, not of Compassion. Islam has a written record to which they must demonstrate complete loyalty, to the death. If they are successful, these too are justified for a resurrection to the Subjective, not back to the Physical.

People who live by the Mosaic Law in the Torah [but not the Talmud, which is of Babylonian origin] and who resist and repudiate all additions to it are justified for anywhere they want to proceed to, throughout the Universe.

[Those who live by the Mosaic Law and adopt the Talmud also which is behavioristic thought-control are, like Muslims, restricted to Subjective experience because they harden their hearts and revert to Not-Seeing the suffering in their presence.]

Believers in the Christ who mind their own business and refrain from judging others, like Lawful Jews, may proceed to new experiences anywhere in the Universe.

But believers in Jesus who utilize His messages to confine, limit and enslave themselves and others to fears around Hell, Damnation and Guilt--as other Fundamentalists--limit themselves to experiences in the Subjective dimensions.

Freedom occurs in inverse proportion to ownership--except for the Rich who take

it all for the time being.

Wealthy castes who utilized the Law of Ten to manifest wealth and then that wealth to manifest power and control are simply evil spirits in drag.

Ownership brings costs--taxes, insurance, maintenance and repair -- whatever it is you possess.

Even monasteries must compromise the vow of poverty in order to keep themselves intact and afloat.

Yet the lilies of the field don't pay taxes; and neither do the foxes nor bears or beasts.

How can a planet work, that does not generate human effort via taxation?

By love. By love, foresters care for their wooded domains.

By love, biologists care for the species of animals they treasure.

By love, doctors go out to undeveloped nations and treat the people.

By love, extended families used to take in "their own" when trouble came.

Love is always possible where money is short.

And this is how God Himself operates--not with money, not with price, but with Love.

And that's HOW YOU KNOW when you have met up with Him--when healing CAME TO YOU FREE, without money or price.

What pleases God is progressing the Spirit while harmonizing the Will.

What harmonizes Will and Spirit is relative Freedom of the spirit, to learn, to know, to think, to reason, to wish, to pardon, to indict, to wonder and to make things happen.

Everything in the Universe moves. Galaxies move in their way; sun systems move around their galaxies, planets move; even moons appear to move.

Your universe is your system of values and your Sun/Son is the body around whom you orbit.

If your orbit is getting smaller and smaller until the Sun/Son is all you can see--not anything else--your soul is STUCK.

Yes, Souls prefer satiety; they prefer comfort; they prefer stasis, status and calm. Souls want it easy.

But, God provided you with a spark of His Own Spirit which craves a free mind. Your body can be totally enslaved and yet your free mind will remain FREE to say "No, this is not what I want."

God is a Mover and a Shaker. Being the Father of ALL Spirits, God incites each soul to Love and to Change, to Go and to Come, and to Agree and to Differ.

Where are you? is a question-not about location. Rather, it is a question about the condition of your soul in time.

"The soul that is sinning, it itself shall die," is a statement about the outcome that getting stuck in bad effects, produces.

God does not desire the end of experience for any soul; all His Children deserve to gain and gain and gain.

But times are like mechanical clocks. There are a lot of pieces moving at once. You stop a few pieces, and the whole thing comes to a halt.

The American economy is built on the synergy of cash and presumed "needs." Killing the planet Herself, "Economics" scars Her with concrete, asphalt; strips the ozone from its protective perch; fills the air with noxious fumes and the water with poisonous chemicals.

The Economy has formed an image of a soul's role as predator, dangerous to our lives. Materialism will be halted--one way or another--by choice or not by choice, but it will stop, says God Who carved the planet into a water-bowl, Who assembled the DNA-strings that comprise ALL living cells.

It is Yahweh God who mounted the land on rock-masses that withstand the stresses of time.

"Consumerism" will stop because humans do not have the right to ransack the work of their Progenitor Race. It is a matter of Law, that it will stop. Without natural limits and boundaries to its predations on health and well-being, the US economy will come to a full stop, is what God says, so My Planet may live on.

People who persevere, count.

It is sufficient that a Church was organized and built upon the Rock of Peter that Charity and Mercy would be established forever, in practice.

But practices being limited to the already faithful, or being limited to "faith-based social services" mean that charity is only at arms-length.

Bureaucracies exist for their own justification, and politicians speak only for their own constituencies, not for all.

Since the Power of God is NOT to be used for mendacity, expediency and waste, He is here to save the trusting; to enable openness of minds; and to facilitate hearing, dogma will not do. The Nature of God is to be merciful. But failing Mercy, the alternative comes down to wrath and judgment against the evil that problems Good as Evil, and Evil as Good.

ANGELS* SACRED *TRUST*

Associating with Mankind, Angels Convey What IS Appropriate [and Safe] according to whatever set of rules they have adopted in Time.

ANGELIC RESPONSIBILITIES

What is Essential is to convey is, "There is NO REAL danger here,"

Yet, this is the doctrine that's killing this planet.

Angels identify with their human subjects as things that are cute.

They experience life vicariously through experiences of their charges, and they encourage vicarious experiences in others.

Their task is testify to the character of persons to whom they were assigned,

. . . but they are unburdened by a sense of dominion or sovereignty of God.

Angels edit the records to inform YHVH of Progress,

. . . and confound attempts to place accountability

Angels companion each other and harmonize together flawlessly,

. . . and they expect everybody else to be able to do the same.

They try to convey to humans how to work cooperatively,

. . . as if they understood the boundaries of Diversity, which they don't.

The appropriate work of Angels is to contact YHVH, to correct error,

. . . neither of which is what is happening sufficiently.

COOPERATIVE THINKING

Thoughts transmit from people to angels and from angels to people,

. . . only the people can't tell whose thoughts are whose.

Angels' Lifestyle is focused entirely on participating together,

. . . so the assumption is made that People will do likewise.

They choose to be aware of the thoughts of others

. . . and they create opportunities for their favorites.

They are aware of and deal with commitments people make,

. . . and influence people's decisions about personal matters.

They gladly respond to the prayers of people for awareness,

. . . *That means they expand their sphere of influence.*

And they plant seeds of new ideas and new relationships--

. . . *whether these are in accord with God's Will or not--in fertile human minds, to watch things grow--*

. . . *as if growth itself--regardless of effects--were Holy.*

What this means is--an open mind doesn't need to own its own ideas--

. . . *which they don't--not as long as people are suggestible.*

What is Holy, Sacred and Real for Angels--

. . . *is not necessarily what is Holy, Sacred and Real for humans.*

Yahveh is aware the Angelic Corps activated its own set of doctrines with respect to physical Reality.

One measure of the power of the Angels is that no sense exists--in the Physical--that Angels attach to any doctrines at all.

Angels have the power to regulate experience for Humans, and they do this by cooperative thinking [Shared Telepathic experiences] in which some assumptions are held to be true.

It is assumed that all human beings have the same Spirit type and the same Will Type. You will always hear angels speaking how People are all the same. *This is in error.*

It is assumed that experiences are just experiences and attach to no larger purpose or reality. The evolution of thought is seen as inevitable with time and -- sufficient monkeys typing at sufficient keyboards. *This is in error also.*

Angels are always Good--that is, they seek to organize and create order out of disorder.

However, they are not always careful about effects they create in time--that end up destroying human Wills, breaking their Spirits and rendering humans dysfunctional.

"We [angels chime in] who administer this planet and this galaxy are your communication with the rest of the Universe. You clearly cannot work alone to discover who you truly are in terms of your spiritual source and soul history.

There's no way you can remember, without the memories of the Godhead to guide you, back through yourselves to your origin. That is why the Scripture is true that says, "Your word is a lamp to my foot and a guide to my roadway."

"With regard to Religion:

"God's concern is that every soul should have options--and opportunities--to manifest a form of integrity--not just this chosen few or that chosen few.

ASSOCIATIONS ARE NOT ABSTRACT

From one's senses, one derives a reckoning of time, space and effects.

But, senses do not portray Spirit; and reason is not limited to time, space and effects.

The individual who gains Reason--abstract and concrete--is the only one who can achieve autonomy.

When what is happening in the physical and the subjective words and deeds are identical--then it can be said that that person is operating by What Is Real.

The act of labeling something as 'real' is an attempt to elevate a thing above attack.

Yet, beliefs about what is real and what is active conflict in true paradoxes.

This is because an individual's reputation is immobilized by opinions set in creeds. Dogma-based individuals cannot adapt to realities or circumstances of Living.

This is WHY GOD ACTS on our behalf, God Who's Active [YHVH] exerts Himself to un-stick the system.

Justice must continue to form the sense of things and operate despite the regulations of men.

Both sides of this paradox are operating from Integrity; and judging against each other CONTAINS the operation of discovering what is sacred.

Herein lies one Reason YHVH is described as a jealous God, because He permits paradoxes to work out as experience.

God's sights are on eternal life for us, His Children, not on doctrines themselves.

Where doctrines conflict with eternal life, YHVH upsets, undoes, and disrupts the doctrines--in favor of clear Truth so what's Holy and what's Sacred can shine through.

Worship is the process of articulating Justice in terms of:

The One versus Another One

The One versus The Many

The Many versus the One and

The Many versus The Many.

People who participate together learn to discern experience and thoughts together.

This is called shared participation just as angelic cooperation is called shared thinking.

If people are to evolve toward spirit, they must learn to adapt to demands of Spirit. If not, if they are ignorant of what Spirit advancement is, then Freedom becomes a license to sin.

We must all reflect on our experiences to see whether we like the results, effects and outcomes we have produced in our life, and then we can develop the means both for becoming more self- and spirit-conscious and then become more options-aware.

Otherwise, when spiritual learning is limited to liturgy and Ritual--there is little shared Thinking, shared Learning, or shared experiences.

What is interpreted as Good among participants is not >ONLY< what harmonizes the group also to overlook completely, indeed make a practice of overlooking what others do to maintain their sense of free spirit and free will that disrupts nothing and no one.

Keeping one's focus on Ritual truths and letting others work out their own thoughts and their own salvation is how we maintain the Peace while yet we are diverse, we differ and change.

When it can be said that freedom is NOT Working, COHESION is what is working; political-correctness.

What becomes visible to God is worshipers' REASONS for their assets and their liabilities.

Reasons show up as aura colors in the human light-field which God can see.

And reckoning by a Soul alone without spiritual mentoring--when that's all a Soul does-- is not sufficient to make a person Eternal and Holy.

Causes and Reasons provide opportunities for abundant spiritual growth--but rote recitation has practically no positive effect.

"Happy times" don't necessarily evolve spirits; challenges do.

In the sacred participation of lawful people, Life must be articulated and written down so the ones coming After can have a guide to work from, on which to build their own experience.

But that doesn't mean you turn the Book into an idol and worship the Book. Not that book, not this book!

In sacred Community, an intention is always given that God's Will for the community is self-abundance through correcting mistakes; thriving strictly by

conservation of energy--not favored opportunities or self proclaimed 'progress'.

In sacred Community, individuals are focused on what is true that works; how to discern what is true, and how far a true fact will bring you toward your goal.

In sacred Community, people learn to be open to showing up, standing up and occasionally, giving over . . . but never giving up and seldom giving in.

Dealings in a sacred Community are broadcast throughout the Galaxy, and are known and recorded and kept.

At times when society turns its back on easing limits and boundaries of Life for their own people, then too it can be said that freedom is NOT Working for that Society.

And thus we today are faced with totalitarian leadership that demands obedience to their fiat dictates.

God never gave in to that in the past, when Canaanites were sacrificing their children to Fertility Gods; and He's not going to give in to that now, with cultural genocide, abortion and serial wars-for-profit [or prophet] diminishing Life on this Planet.

Nothing is ever hidden from God's and the Universe's view.

What is appropriate among people of God is what is Safe.

What works is what is sufficient for everyone, not just for a Few, for Some or for Many.

What is judged "good" when applied leads either to abundance or suffering for all.

So It Is. And so it is in Heaven also. This is your School for Cosmic Experience.
